## Description

The XStar is truly in a style class all its own, which includes some really innovative seating. The convertible bench-style seat in the back has three different positions, and, in true MasterCraft form, it moves smoothly between them without engineering pain points.

The observer seat is also a convertible and was specifically designed to get more people in the boat facing the action. The bow sports triple bucket seats that face backward.

The XStar's distinct shape kinks through the middle with a pronounced pickle-fork bow that's something out of a sci-fi movie. Put the shape together with MasterCraft's unique branding reserved for the XStar and you've got a killer package that sets you apart from the crowd. Continuing with the nonconformist theme, the XStar's dash is like nothing else out there, including those on other MasterCraft boats.

Highlights include a pop-up center display that you can hide away when you don't need it, and two more screens, one on either side of the steering wheel.

We have packages available with custom matched Mastercraft trailer, 12 months registration and safety gear from \$174990

We are located in Sydney's southern suburbs, only 20 minutes from the airport and 5 minutes from the beautiful Port Hacking river.

Trade ins are welcome and finance can be arranged TAP and our relationship with the Mastercraft dealer network nationwide means we can source a boat for you from one of the fantastic, professional dealers interstate if we don't have the boat you are looking for.

We sincerely thank you for giving us the opportunity to assist in your next boat purchase and we look forward to discussing your requirements. We are open Mon-Fri 8.30am - 5.30pm and Sat 9am-1pm with appointments available outside these hours when available.
