Unit 9 67 - 71 Vicars Street Mitchell ACT 2911

Description

For buyers who demand a more traditional look in a bigger footprint with even driving, surfing and wakeboarding performance stats should put the X30 at the top of the list.

Despite all the creature comforts, the X30's performance is the true standout. This boat surfs as well as it wakeboards and as well as it drives, and that's something very few boats can match. The Gen 2 surf system is tailored to each hull to create a symmetrical wave without moving weight from side to side, which brings surf performance to its utmost potential. With its beefy hull, the X-30 has a deluxe ride similar to a luxury sport car

The X30's dash is one of MasterCraft's best layouts. The digital screen sits off to the side, and three massive analogue gauges are front and centre where you can easily glance down at them while underway. Besides the functionality, it keeps with the more traditional feel of the X30.

Despite its traditional mantra, seating goes beyond plain benches; there are contoured seats in the back and the convertible rear bench-style seat transitions quickly and easily between three different positions.

If you own such a versatile boat, you're going to need storage for every type of water toy. The X-30 has a massive 116 cubic feet of storage space. Under the port-side seats, there are no bulkheads to segment storage, so stowing even the longest boards is a breeze. Under the starboard-side seat is a carry-on Igloo cooler and a trash can for empties - all in all everything you could want is on hand in this magnificent machine.
